Setup Match

- At the Rocket League Homepage select:
 - Play -> Private Match -> Play private match and use the exact settings below.
 - You can use whatever Name and Password you like as long as it is in accordance with our “Code of Conduct”.

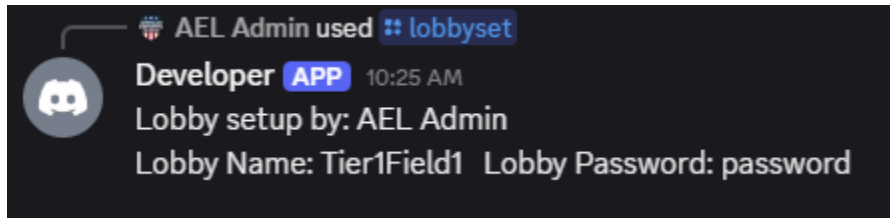

- Use command **/lobbyset** in the discord channel to post the lobby name and password.
 - Type “**/lobbyset**” into the discord message box and hit **enter**.
 - Again make sure you are in the correct Group and Field.

- **Input** lobby name and password into text fields and hit **enter**

- When you hit enter you will see the lobby name and password posted to the discord channel.

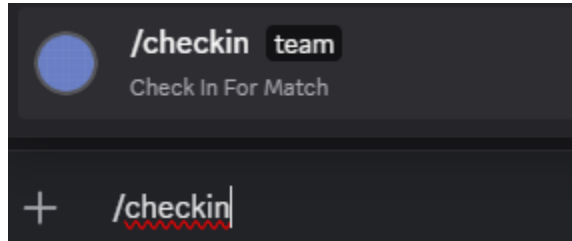

Check In

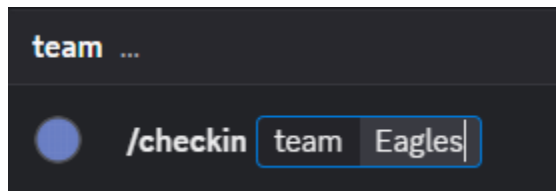

- Have your team join the Rocket League private match lobby you just created.
- Use command **/checkin** on discord to check your team in
 - **/checkin means your team has joined the Rocket League private lobby and you are ready to go.**

How to check in

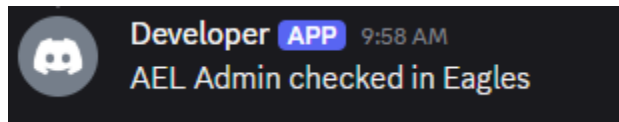

- Type “**/checkin**” into the discord message box and hit **enter**
 - Again make sure you are in the correct Group and Field

- **Input** your team name that you are checking in and hit **enter**.

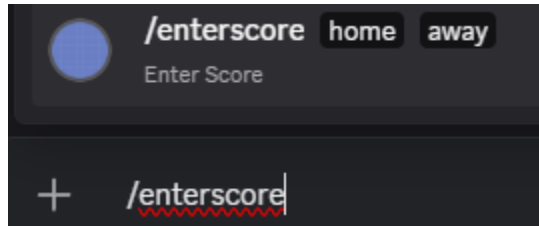

- Once you hit enter you will see your name checked in your team.

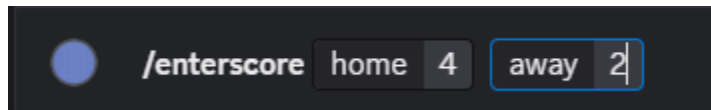

- **The Home Captain (or team member) can begin the match once both teams have checked in.**
 - If you or a team member does not `/checkin` within the 5 minute grace period you may be subject to a forfeit. Please read the rules located at ael.gg/rocket-league.

Submit Score

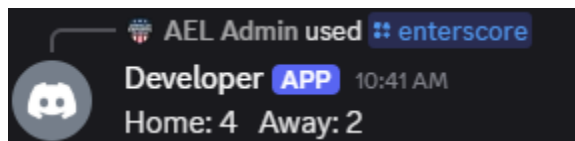

- Once the match has concluded use command **/enterscore** in the discord channel.
 - Type “**/enterscore**” into the discord message box and hit **enter**
 - Again make sure you are in the correct Group and Field

- **Input** home and away match score and hit **enter**.
 - Match score is how many games each team won.

- Once you hit enter you will see the scores posted to the discord channel.
